

Dr. Baradaran is an experienced specialist in Periodontics, Implantology and Microsurgery. His practice specializes in treatment of gum disease including cosmetic procedures to aesthetically enhance your smile utilizing cutting edge techniques such as microsurgery (surgery while using a surgical microscope at very high magnification). Dr Baradaran has been successfully placing implants that can replace single or multiple missing teeth since 1992. He performs these highly specialized procedures with minimal impact on patients.

Dr. Baradaran will work closely with your referring dentist, but a referral by a dentist is not required for a comprehensive examination.
